OCEANFRONT LOCATION

Hotel Residences

All residences at Azura and Nautilus are defined as Hotel Residences under Bermuda law. Simply stated, this is a privately-owned residence on the grounds of a licensed hotel.

Nautilus Ocean Residences provides owners and their guests a turnkey home and amenities with the utmost flexibility in mind: to use as a (second) home base and to have their residence professionally managed and rented to hotel guests for income.

The ownership and operating model is similar to the concept of a Condominium Hotel. However, our model allows owners more flexibility in residing and managing their residence than many typical condominium hotel models abroad. The amount of time owners spend in their residences is entirely up to them and can change from year to year.

All owners need to commit at a minimum of one bedroom (or 'hotel key') to the Hotel Rental Program for 50% of a calendar year (183 days) for at least five years. There are no seasonal or calendar date requirements, so, residence owners can fully customize their schedule and planned usage annually. Above the minimum, owners can commit as much time to the Hotel Program as they like - there is no limit.

ISLAND LIVING

TROPICAL PARADISE IS

Closer Than You Think

Easy Access

Bermuda is only a 2-hour flight from major hubs such as Boston, New York, and Philadelphia, and under 3 hours from Toronto, Atlanta, and Miami. Flights to London are 7 hours—making Bermuda one of the most convenient island escapes to reach.

Getting Around the Island

Each hotel residence comes with an Assessment Number, allowing owners to purchase a car in Bermuda. There will be parking in various areas on the site, and electric charging stations can be added should an owner buy an electric vehicle.

Other options include the resort shuttle, which operates seasonally or by advance arrangement, which can take residents into Hamilton and nearby Elbow Beach. Resort golf carts can also offer guests assistance around the property as needed. Or, for a fun and convenient way to get around, consider renting an electric car or bike. These can be reserved through the front desk and multiple charging stations are on the property for the island's latest rental options like Twizy's and Bermi's.
